

CRYPTO TRADING BOTS RIGHT AT YOUR FINGERTIP

We are developing a powerful DeFi platform that can effectively put bot creators and individuals in touch with one other for earning opportunities while protecting data and privacy. Thanks to blockchain technology, a higher set of standards in transparency, efficiency, and security have been introduced. Now is the best time to transform the financial industry with RoboFi to benefit financial market players.

THE WORLD'S FIRST DECENTRALIZED CRYPTO TRADING BOT MARKETPLACE

Our Mission

Our mission is to utilize blockchain technologies, adapting the DAO principle to create a safe and trusted environment for the financial market.

Our Vision

Our vision is to be the first DeFi platform that is powered by DAO bots which supports individuals earning in financial markets including, but not limited to crypto currency, equities, forex.

THE CHALLENGES IN TRADING

Users

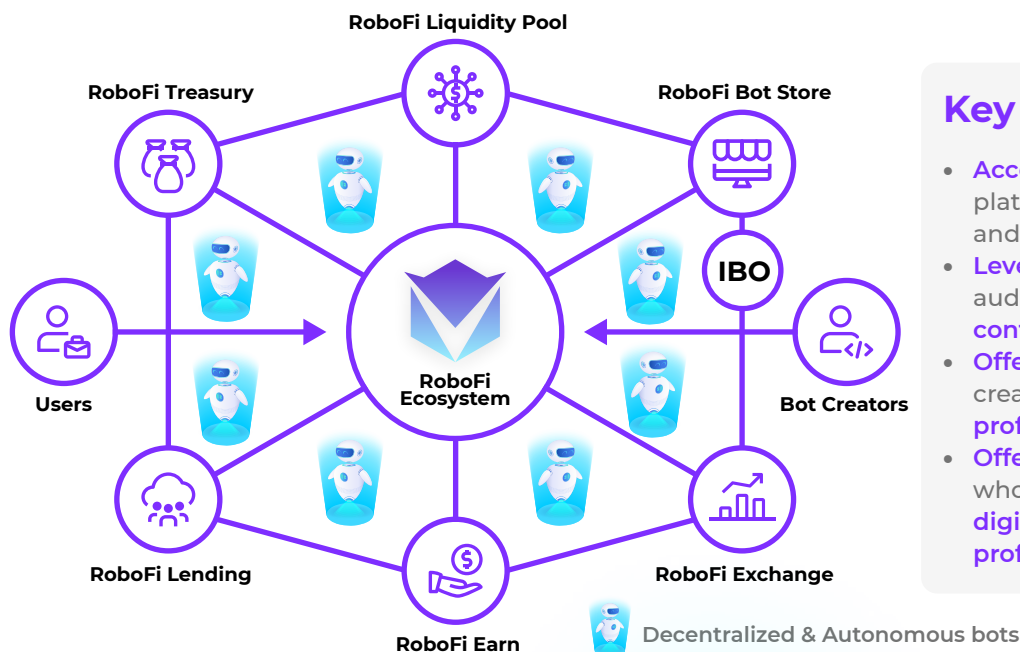

- Due to the market's volatile nature, it is easy to lose money.
- Market is open 24/7, so it's hard to follow all the time.
- Hard to find institution-grade crypto trading bots.
- The available bots in the market are not user-friendly.
- Lack of security and transparency.

Bot Creators

- Fundraising/Crowdfunding problems.
- Very limited sources to raise the funds.
- Difficulty in proving the trading bot's performance and efficiency.
- Profit/Loss payout calculation issue.
- Privacy and Intellectual property concerns.

SOLUTION

CONNECT BOT CREATORS AND INDIVIDUALS THRU BLOCKCHAIN TECHNOLOGY

Key Feature

- **Accessible and transparent** DeFi platform that connects **bot creators** and **individuals**.
- **Leverage blockchain** technology to audit all transactions through **smart contract**.
- **Offer IBO (Initial Bot Offering)** to bot creators who want to **raise funds/earn profit** from their developed bots.
- **Offer earning opportunities** to users who would like to **leverage** their **digital assets** and **maximize their profit**.
